

FRUITS / VEGETABLE

可可、棕果、蔬果專用

CEREALS

谷類專用

FLOWERS / TEA PLANTS

花卉、茶桑專用

TOBACCO PLANTS

煙草專用

楊康活性微生物有機肥

Yang Kang Bio-Active Organic Fertilizer

技術特性

噴施 2 小時后，被植物的葉莖吸收，
7天能見到初步的效果。

主要成分

微生物，活性菌，氨基酸，多種維生素，
氮，磷，鉀及微量元素等。

使用方法

- 1) 浸種：使用濃度 1:400 倍，浸種 10-30 分鐘。
- 2) 葉面噴霧：使用濃度 1:300-400 倍，7-10 天一次。
- 3) 根部灌施：使用濃度 1:100 倍。
- 4) 一小蓋稀釋 2 公升 (Liters) 水。

有效成分及含量：有效活性菌數 $\geq 5 \times 10^7$ /ml. N+P₂O₅+K₂O $\geq 6.0\%$

- 提高產量
- 改良土壤
- 對環境無不良影響
- 促進早熟
- 無毒無害
- 改善品質
- 防虫抗病
- 適合綠色食品

Technological Characteristics

Two hours after spraying, it is absorbed by the leaves. Repeated application will improve its effectiveness.

Usage

1. Pre-plant seed soak : Dilution 1:400. Soak vegetable, fruit and flower seeds in the solution for 10 minutes. Soak grain seeds for 30 minutes.
2. Spray application : Dilution 1:300-400. Apply directly on the back of leaves. (Grain may be sprayed on the front). Spray one time of every 7-10 days.
3. Irrigation : Dilution 1:100. Irrigate during growing period. For perennial plants, irrigate after fruits are picked.
4. One (1) bottle cap dilute 2 litres water.
5. Broadcast the base fertilizer evenly on the soil before plowing and then turn up the soil.

- INCREASE THE OUTPUT
- IMPROVE THE SOIL
- PREVENT THE INSECT PEST AND PLANT DISEASE
- CROPS RIPEN EARLY
- NON-TOXIC
- NO BAD EFFECT OVER ENVIRONMENT
- IMPROVE PRODUCTIVITY
- APPLY TO GREEN FOOD
